MEMORANDUM FOR: Director of Central Intelligence

FROM: Deputy Director for Intelligence

SUBJECT: Media Access to Photo Satellite Imagery

1. Action: None. This is for your information.

2. Background: You asked me before you went on vacation what we should or could do about the problem of media access to satellite imagery. I think it is a serious problem with no clear, easy solution. I have asked that a small inter-directorate group, under CRES leadership, from the DI and DS&T be pulled together for several weeks to look at this issue in some depth. I will advise you of their findings and steps I think may be appropriate to take at that time.
